Dear Mr Benson,

**United States Patent Application Nos. 10/532,118 and 10/532,119
In the name of Goldpower Limited**

I am writing in connection with the above-referenced patent applications, specifically following up on our recent correspondence in relation to the requirement in the US for inventors to execute certain documents as part of the patent procedure.

Further to our letters to you dated 2 November 2005 and your telephone conversation with Matthew Lawman on 3 January 2006, in which you indicated that you had received the letters and accompanying documents for signature, we are re-sending copies of the letters, the declarations and the full patent specifications for your immediate attention and would ask that you kindly execute the declaration and assignment documents and return them to me in the postage-paid and addressed envelope.

This matter is now urgent and we need to receive the signed declarations no later than by Wednesday 22nd March (next week). We hope that you are able to co-operate with us on this matter; please do not hesitate to contact me or Matthew Lawman should you have any queries in relation to this matter.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Heather McCann".
